

S/N	Question	Answer
1	<p>Chad: In the UK we are unable to insure work travel to Chad due to current Foreign office guidance on the countries safety levels. Would it be possible to train the learners in Chad in Burundi as a one whole group or in the closest country with a green FCDO rating? Suggestions might include: Egypt, Algeria, Tunisia or Nigeria.</p>	<p>Since we require the training to be adapted to local conditions, this is not possible.</p>
2	<p>LMS: our system is designed to be in English normally, but users can translate the page into French when using the translate feature in all browsers. Would this be okay in regard to fulfilling the French language requirement? All feedbacks and driver assessments will be delivered to the agency in French.</p>	<p>If you are referring to the training platform where the information of the trainees is collected, then yes, this would be ok.</p> <p>On the other hand, if you are referring to training material such as reading material, slides, etc., then it would not be acceptable.</p>
3	<p>ToT service has to be delivered in each location (Chad and Burundi) for the identified number, or if the participants can be combined in a single location?</p>	<p>Since we require the training to be adapted to the local conditions, the training has to be delivered in each location.</p>
4	<p>Would it be possible to receive more information about the profiles of the participants in Burundi and Chad (3 participants in one and 4 in the other) to help us properly tailor our proposal?</p>	<p>Mainly due to data protection and security constraints, we do not intend to disclose the profiles at this stage.</p>
